## CIRCULAR

Dear shareholder

May you all have a blessed and profitable New Year.

Cryptique had to start early due to the losses and delays caused by COVID-19 in 2020.

Registration of the prospectus, the final audit and short term funding are the three main targets up to March.

The Cryptique brand is steadily being spread, largely by word of mouth.

As a result the company is offered additional assets and business on a weekly basis.

The first object, however, remains the ZAR X listing.

Negotiations with local, Nigerian and Qatari investors will dictate the direction and pace of further developments.

To keep you informed, Cryptique will issue a mini-circular after every major agreement, investment or event.

Regards

Wilhelm Smith
