## CIRCULAR

### To whom it may concern

Dear shareholder

At present I am working fulltime on draft 7 of the listing prospectus.

To accelerate the process, I have consolidated the asset portfolio. A number of highly attractive ventures (especially on the mining side) have to be held over until after listing since the supporting documentation (and especially the geological reports) will cause a substantial delay.

A full presentation (mini road show) will be held for the listing sponsor, other professional advisors and selected guests and investors before the end of the month.

A specific project to activate the first digital currency is also being implemented in tandem with the listing process.

The directors are of the view that, since substantial wealth can be created for all shareholders by the listing, the capital raised and the resultant business expansion, the relevant process must receive their total undiluted attention.

Cryptique will thereby also become the platform/springboard for the other ventures.

I shall regularly notify you of the steps taken and the progress made.

Regards

Wilhelm Smith
